INTRODUCTION TO CLINICAL CHILD/PEDIATRIC PSYCHOLOGY

Fall Semester 2015

Tuesday, Periods 9-11 (4:05 – 7:05 pm)

HPNP Building, Room G-101

3 Credit Hours

Instructors:

Supervising Instructor: Dr. David Janicke (Djanicke@phhp.ufl.edu)

Name:	Julia Carmody, M.S.	Alyssa Fritz, M.S.	Sarah Westen, M.S.
E-mail:	jcarmody@phhp.ufl.edu	amfritz@phhp.ufl.edu	westens@phhp.ufl.edu
Office hours:	By appointment	By appointment	By appointment

Please contact the appropriate instructor with questions and concerns using the following guidelines:

If your last name begins with the following letters, contact the indicated instructor.

A through Go: Julia Carmody

Gr through N: Alyssa Fritz

O through Z: Sarah Westen

Course Website:

We will be using Canvas for this course. The website can be accessed at: <https://lss.at.ufl.edu>.

The syllabus, Powerpoints, and readings will be posted here weekly, in addition to grades when they become available.

Course Description:

This course is designed to provide students with a broad overview of Clinical Child and Pediatric Psychology. The development of these fields as specialty areas within Clinical Psychology as well as the scope of practice will be discussed. The course will provide students with an introduction to the major behavioral and psychological disorders of childhood and adolescence, emphasizing methods of assessing and treating these disorders that are supported by research. The course will also review the various theoretical approaches to child and family therapy. Issues related to the education and training of child/pediatric psychologists, including training in ethics, multicultural competence, and legal matters will also be presented.

Course Objectives: By the end of the course, the student will have:

1. Gained a broad understanding of the historical development of the fields of clinical child psychology and pediatric psychology and learned about the roles, scope of practice, and settings of practice available to clinical child/pediatric psychologists.

2. Acquired understanding of most common psychological disorders of children and adolescents and how these disorders may present to clinicians.
3. Developed a basic knowledge of assessment techniques and common psychological treatment modalities used with children and families, with an awareness of which methods have been empirically supported.
4. Learned about multicultural considerations, ethical issues, and dealing with abuse/neglect within psychological practice.
5. Acquired an understanding of the training of clinical child/pediatric psychologists.

Required Text: Mash, E.J. & Wolfe, D.A. (2012). *Abnormal Child Psychology* (5th ed.). ISBN-10: 1111834490 | ISBN-13: 978-1111834494

This text has been ordered through the UF Text Adoption service and should be available at the bookstore. Used copies may also be available online. Assigned readings are listed below according to the lecture they accompany. Additional readings will be available for download on the course website for use with Adobe Acrobat Reader.

Course Format:

The format of this course will be primarily lectures, given by either the course instructors or guest lecturers. Case presentations will also be used during this course. Although the size of this course somewhat limits class discussions, students are encouraged to speak up if they have questions or comments about the material presented.

Grading:

Quizzes: There will be four, short, multiple choice quizzes randomly given over the course of the semester, which will be based on the **readings and lecture material for that day**. At the end of the semester, we will drop your lowest quiz grade. These three quizzes will be worth 4 points each, for a total of 12 points towards your final grade. Quizzes will not be allowed to be made up.

Exams: There will be TWO equally weighted exams, a midterm and a final, each worth 50 points. Exams will not be cumulative and will cover material from lectures and readings. The format of exams will be multiple choice and short answer.

Your final grade will be the percentage of points you have earned out of 112 possible points.

Final course grades will be based upon the following cut-offs:

<u>Grade</u>	<u>Percent</u>	<u>Points</u>
A	93-100	104-112
A-	90-92	101-103
B+	87-89	97-100
B	83-86	93-96
B-	80-82	90-92
C+	77-79	86-89
C	70-76	78-85
D+	67-69	75-77
D	63-66	71-74
D-	60-62	67-70
F	59 and below	66 and below

Letter	A	A-	B+	B	B-	C+	C	D+	D	D-	E
GPA	4.0	3.67	3.33	3.0	2.67	2.33	2.0	1.33	1.0	0.67	0.0

There will be no make-up exams, except for documented medical reasons (i.e., physician note). If you miss an exam, you will receive a score of zero on that exam. Students who must miss class on the day of an exam may request arrangements to take the exam early, pending approval by the instructor. These arrangements must be made early in the semester. If you will miss a class or need to leave a class early please let the instructor know in advance.

Class Attendance: Given that this is an upper level elective course, class attendance is expected and highly desirable. Keep in mind that there will be four multiple choice quizzes randomly given over the course of the semester; quizzes will not be allowed to be made up if you are not in class. Lecture material will include information from assigned readings, but will not be exclusively from the textbook or assigned articles. It is especially important not to miss guest lectures, as the information discussed will be on exams and will be more in-depth than the assigned readings. If you do miss a class, please be sure to request notes from your classmates.

Accommodations Due to Disability: Students who wish to obtain individual accommodations due to disability must first register with the Dean of Students, Office of Student Disability Services. That office will provide documentation to the student regarding allowable accommodations. The student must then provide this documentation to the instructors when requesting accommodation. These steps should be taken at the beginning of the semester.

Laptop, Cell Phone, and Newspaper Policy: Given that class lectures will be available online, laptops will be allowed in class, however if they appear to be causing a problem, disrupting class participation, or interfere in any other way with class, this privilege will be revoked. Additionally, newspapers and cell phones, including text messaging, are prohibited during class. These items are distracting to both students and instructors and are disruptive to the learning

environment. Students who are found to be in violation of these rules will be asked to leave the classroom. We appreciate your cooperation.

Counseling and Student Health: Students may occasionally have personal issues that arise in the course of pursuing higher education or that may interfere with their academic performance. If you find yourself facing problems affecting your coursework, you are encouraged to talk with an instructor and to seek confidential assistance at the University of Florida Counseling and Wellness Center located on Radio Road, 352-392-1575. Visit their websites for more information: <https://www.counseling.ufl.edu/cwc/> or <https://www.counseling.ufl.edu/cwc/Emergency.aspx>

The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services, including primary care, women's health care, immunizations, mental health care, and pharmacy services. The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 392-0627 or check out the website at: www.health.ufl.edu/shcc

Crisis intervention is always available 24/7 from:

The Alachua County Crisis Center: (352) 264-6789.

BUT- Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. You are not alone so do not be afraid to ask for assistance.
